

INTERCULTURAL MOTHER & BABY GROUP IN KAISANIEMI

Duo Project's intercultural Mother & Baby group is an informal discussion group in which mothers and babies (under 1-year-old) can meet, talk and share experiences with each other over a cup of coffee. All mothers of intercultural families - Finnish and foreign - are welcome to participate.

The themes discussed in the meetings pertain to issues related to intercultural parenthood and family, and include the identity and language development of a bilingual and intercultural child. There are altogether seven weekly meetings and each meeting lasts about two hours. The group is facilitated by volunteers who are also mothers of intercultural families.
